

# Steelbase

## ENTER THE LOFT

We create atmosphere where people feel comfortable and at home by combining interior design projects with a curated details and daily interior content.

**loft style supports**

# About us

Steelbase is a manufacturer of tables made of precious wood and steel, as well as frames and supports for office furniture and the HoReCa segment.

## *Our competence:*

Engineering development and mass production, as well as contract orders in the sector of finished products, components and accessories for the furniture industry.

Distribution of products to chain stores, trading platforms, serial furniture manufacturers and market operators in the sphere of furniture components.

In 2020, a rebranding and restructuring was carried out; in the past, the company has established itself in the markets of Ukraine and Europe under the name Stilgrey.

## *Production:*

Since the establishment of the company in 2017, we have been creating supports and frames for office desks and the HoReCa segment. In 2020, finished products in the form of tables, benches, shelves and consoles made in Loft style were added to our range of products.

The production unit of the company is located in a close range from Kyiv, namely in the city of Boryspil.

## *Exhibitions:*

Since 2017, Steelbase has been participating in both national and international exhibitions of furniture and furniture components.

You could have seen the stand of the company and contacted our delegates at the events listed below:

Kyiv KIFF 2017  
Kyiv KIFF 2018  
Kyiv KIFF 2019  
Köln Interzum 2019  
Kyiv KIFF 2020

# Loft A collection

The metal leg or the frame, the substructure **Loft A** will be ideal for creating the modern design. With its help you can independently create different tables, desks, worktops and anything similar. This beautiful, minimalistic shape of the legs can be used in conjunction with wood, stone, steel or glass.

## Loft A collection

The legs are made of a closed steel profile with a cross-section of 80×40 mm and they appear in three basic color variations of powder coated iron – black or white matt as well as raw steel, lacquered. This leg has assembly openings in the upper part, which allow a reliable fastening of the leg to the plate.

Our table furniture legs can also be individually adapted to your desired dimensions at an extra charge.

Standard sizes are following:

Width – 800mm

Height – 720mm

## Loft O collection

The metal leg or the frame, the substructure **Loft O** will be ideal for creating the modern design. With its help you can independently create different tables, desks, worktops and anything similar. This beautiful, minimalistic shape of the legs can be used in conjunction with wood, stone, steel or glass.
